Arrivals

1. Upon arrival aircraft must follow ATC instructions to taxi into general aviation apron or commercial apron; this will depend on aircraft wing span.

The first authorities approach will be held by Military, after his approval (this can take up to 25 minutes) customs and immigration will approach to the aircraft, in the meantime the crew will have to unload the bags and place them under the wing so authorities can use a K9 unit to check if there is any kind of drugs or explosives, then the passengers will disembark and walk to the general aviation terminal to check into customs and immigration, while the passengers walk through the customs procedures, our agent will take the passports to the immigration agent.
4. The pilots must go to the CAA offices with original documentation of their own and the aircraft (Licenses,

medical certificates, AW, aircraft registration and insurance).
